WASHINGTON, D, C., March 19. The betting continued at St. Asaph's track to-day, the money being placed in the pool room at Wheeling as had been arranged a few days ago by Colonel lill, the owner and promoter of the St. Asaph track. The following description of the placing of the bets will be of interest:

As each man entered the gate there was thrust into his hands a card bearng the list of entries at the New Orleans and St. Louis tracks and a handful of printed blanks, on which to write orders for the execution of com-missions. Inside the pool room, instead of the names of horses, the blackboards were decorated with notices as follows: No betting done or permitted here. No commission tickets furnished

"No commission tickets furnished here."

A telegraph operator occupied a seat behind the counter, and three clerks attended to receiving the commissions. The operator first called out the riders in the various races at New Orleans, and half an hour before post time for the first race he announced. "First line at New Orleans." "First line meant the first odds quoted at the track which the betters proceeded to record on their entry cards. A few minutes later the "second line," or second track betting, was announced, and the backers proceeded to get their commissions. They wrote out their orders on duplicate slips, bearing the same number, and handed them to the clerk, with ten cents commission fee.

The following is a copy of the ticket: "VIRGINIA JOCKEY CLUB.

"VIRGINIA JOCKEY CLUB.

Please forward for me to Wheeling.

"It is understood and agreed that the Virginia Club acts in the premises as a commen carrier, for the purpose of transferring the money above mentioned to the place designated.

"Notice—Amount of order returned, less commission, when a failure to execute is due to accident or other unavoidable delays in transmission."

After the slips were stamped the clerk handed one back to the bettor. The stamp read as follows:

"Com'n ree'd. V. J. C., March 18, 1994."

"Com'n rec'd. V. J. C., March 18, 1898."

No bommissions were received after the horses were at the post. The total sum received at each starter was wired to McLaughlin & Company, turf exchange, Wneeling, W. Va., "and a few minutes later the operator announced: "Commissions have been executed!" at the same time handing to the clerk in charge a dispatch signed "McLaughlin & Company," reading: "Commissions accepted, O. K.," A description of the race followed soon after, and the fortunate backers of the winner preserved their ends of the order blank, which will be cashed to-morrow. It is understood that all the officials of the club formally tendered their resignation recently in order to avoid possible responsibility.

dge Pelham, who will be a witness the Commonwealth, tried to place a

sibility.

Judge Pelham, who will be a witness for the Commonwealth, tried to place a bet on Tom Payne, but was informed he could not bet there, but that a commission would be executed for him at Wheeling. He refused a blank,but was accommodated by an outsider. Examper Downham tried to have a commission executed after the horses were at the post, but was turned down.

All the features of the commission business were carried out. One of the clerks will be arrested and the indictment which the grand jury is expected to return will keep the authorities himsy between now and Monday, it will probably contain ten different allegations and the greatest care will be laken in drafting it.

It is conceded generally that there is no possible chance of conviction under the Maupin bill, which simply prohibits betting in the state or forwarding or pretending to forward money to bet at race tracks. The companion to the Maupin law, however, which deals exclusively with betting on foreign events is sweeping. It prohibits forwarding or pretending to forward money to be bet outside the commonwealth. It is under this law that it will be attempted to secure conviction. The lawyers for the tracks, however, claim this bill is bill.

or pretending to forward modes, or pretending to format modes, and the to secure conviction. The lawyers for the tracks, however, claim this bill is constitutionally defective and are sure of securing a decision in their favor in the lower court. If the decision is against them an appeal will be taken, and the track people will, if necessary, attempt to enjoin the authorities from interfering with their business pending a final decision.

If the track wins the system will be modified so as to allow the cashing of tickets immediately after each race. Otherwise, their profits would be seriously curtailed, as after the victory of a big favorite all the money would be tied up in their hands, with no chance for them to wir it back again on the succeeding races. The sports were busy laying odds on the side yesterday of two to one against the law. Copies of the commission slips in use were forwarded several days ago to the governor, the attorney general and Judge Chicester, of Alexandria county.

The Watson hotel sobby is crowded with men talking river. The Pittsburgh delegation from the coal exchange, more than thirty strong, came in this evening and started the ball to rolling. Soon after Wheeling's smaller delegation got in the Fairmont committee put in an appearance and soon the gathering began to look like a convention. Morgantown arrived and added to the interest. The Washington party is due at 5 o'clock in the morning.

After breakfast the start will be made probably on a special train to Morgantown, thence by boat to Pittsburgh. From present indications it will not be necessary to pole the boat along. The mountain streams are running down strong.

A very delightful musicale was given Call for a Conference to be Held in Wa ington signed by Foremost Men of the WASHINGTON, D. C., March 19 .-

The following call issued here to-night is self-explanatory: WASHINGTON, D. C., March 12.

WASHINGTON, by widespread desire has been manifested both in the United States and in Great Britain for the establishment between these two courties of a permanent sytem of arbitration.

With a view to the accomplishment of

With a view to the accomplishment of that end we hereby invite you to attend a national conference, to be held in the city of Washington, on Wednesday and Thursday, the 22nd and 23d of April, next, to express the general conviction that such a system of arbitration should be speedily provided for by the proper authorities and with the most comprehensive application practicable.

It is earnestly desired that all parts of the country should be fully represented at this conference, and, in order that this may be assured, a similar invitation has been sent to representative men, irresepctive of party, or creed, in every state and territory in the union—the combined memberabip of the two houses of Congress being taken as a general basis of numbers and apportionment.

Assuming that you share our belief Assuming that you share our belief

ment.

Assuming that you share our belief as to the importance of the end proposed, we deem it unnecessary in this communication to enter into an extended statement on the subject. By repeated acts, as well as by repeated declarations, our government has appeared before the world in advocacy of international arbitration, as a measure comformable to our own interests and the genius of our institutions, as well as to the cause of general justice and civilization. To this effect patriotism, philanthropy, statesmanship and religion have spoken as with one voice. In confining the present movement to the promotion of arbitration between the United States and Great Britain, we are not unconcerned for the wider application of the principle involved. But, taking into consideration the importance and the value of practical results, it has seemed wise to concentrate our immediate efforts upon the attainment of a permanent system between the two great English-speaking peoples.

Earnestly trusting that we may receive at an early day your acceptance, of the invitation hereby extended, we remain.

The circular, which has been sent to

than diamonds. Health is life. No pleasure can be taken without it. It is the most precious thing in the world, and many people are careless about it. They neglect their little aliments—they ingoe nature's danger signals and run right onto the rocks of disease. All diseases have insignificant beginnings. Consumption is but the fruit of neglected catarrh. A slight cold develops into pneumonia or bronchitis. A little indigestion grows into 'liver complaint.'

The best way to cure a disease is to prevent it. The next best way is to catch it before it develops to its worst stage.

Dr. Pierce's Golden Medical Discovery is a medicine for the whole body. It searches out the weak spots and builds them up. It is a strengthener, a putifier and a cure. It puts the digestive system into an active, healthy condition, purifies and enriches the blood and forces out all poisonous matter. Taken in time, it will cure of per cent, of all cases of consumption. It is a purely vegetable compound that works in perfect harmony with nature. It tones up the whole body and produces strong, hard, healthy fiesh. It has cured hundreds of cases of consumption, branchitis, asthma, chronic nasal catarrh and kindred maladies, which had withstood the effect of every other medicine.

A large number of testimonials and photographs of those cured have been printed in the 'Medical Adviser,' toop pages, goo illustrations, sent for twenty-one cents (in stamps,) to cover postage and wrapping. World's Dispensary Medical Prisa Pensary Medical Association, Buffalo, N. Y.

Gladness Comes
With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrupof Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it sets. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co, only and sold by all reputable druggists.

If in the onjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the
